THIS MORNING'S NEWS.

In New York yesterday Government bonds were quoted at 121 for 121 for 1907, 113 for 49½; sterling, \$1 564 17; 100 for 38, 100 for 98½;

Silver in London, 157½ d. consols, 10 5½ d.; 5 per cent. United States bonds, extended, 105½; 48, 12½; 45½, 13.

In San Francisco Mexican dollars are quoted at 86½-89½ cents.

The Times, in the south-eastern Comstock, which was the feature in San Francisco at last week's close, was not fully maintained yesterday morning, while the general market also had a weaker tone.

James Anderson, Deputy County Clerk, dropped dead in Cloverdale, Sonoma county, Sunday evening.

S. M. Eno, an old resident, died suddenly in Yolo county Saturday morning from a stroke of paralysis.

The San Joaquin County Wool Growers assembled yesterday in Chicago.

Wall street was quiet yesterday.

The Erie County Bank of Savings, at Erie, Pa., suspended yesterday.

The Planters' and Mechanics' Bank of Petersburg, Va., has temporarily closed its doors.

Trouble is brewing with the Indians in the Nez Perce and a fight anticipated.

Sam Ward, once a famous lobbyist in Washington, died in Italy yesterday.

The League of American Wheelmen is in session at Washington.

Adolph Etter was fatally crushed near Post-lake, Ohio, by a team of mules.

A man who had won in Oregon is unprecedent in the history of that state.

Spokane Joe, an Indian murderer, has been transferred from Walla Walla, W. T., to the Colville reservation, to be tried by his own people.

Mrs. S. A. Carroll's residence, near Grass Valley, was destroyed by fire Saturday night.

The recent discoveries in Dakota are creating great excitement in that region.

The State Agricultural Commission held a meeting with closed doors in San Francisco yesterday.

Largely Attended Funeral — A Train Ditched.

LOS ANGELES May 19th.—The funeral of the late Thomas J. Cawley was largely attended yesterday.

The train derailed early from the East during the night on the Colorado desert, near Seven Palms station. The passenger cars kept to the track. The cause was a washout. The train is expected to in-to-night.

ARIZONA.

Advices from Tucson.

TEXAS May 19th.—The Grand Jury is investigating the Hutton & Co. failure, specific charges having been made.

Jack Bolyn, this place, has been indicted by the Grand Jury for perjury. He is charged with testifying falsely in the Gibson trial for murder.

Jack Bolyn, editor of the Florence Enterprise, has been indicted by the Grand Jury for libel. The complaint is made by Deputy United States Marshal Evans, of Tipton.

Jack Bolyn was shot and instantly killed at Fairbank by William Humphreys.

From the testimony at the Coroner's inquest, the affair looks like an unprovoked killing. Humphreys gave himself up, and is now in custody. He will be tried for the murder of his wife.

He will be tried for the murder of his wife.

Eighteen boys were poisoned near Harrodsburg, Ky., yesterday, from eating henbane, two dying, and the others suffering greatly.

Glow gas took place last night in Chicago and Philadelphia.

THE CHROME-PREMIUM BUSINESS.

The publication of newspapers may be said to have very nearly reached in this country its highest possible development.

The rivalry is so great, and the reading public has been educated up to such a high standard of demand, that there now remains but the narrowest possible margin of profit.

Only papers of very broad circulation, and the newest advertising patronage, can now afford to offer outside inducements.

But all such papers should be assured a clientele on their merits. A thoroughly good paper should have no need to offer catch-penny premiums. For newspapers are now furnished at so low a price, it may be taken as a certainty that the goods at your valuation, and forward me the difference, and I'll subscribe for any number of your papers every hour in the day, on the same terms."

AMERICAN CARRIAGES FOR MEXICO.

According to Consul-General Sutton, there is a remarkably fine opening in Mexico for American carriage builders. Most carriages used in Mexico are imported either from Europe or America.

They must be so built as to be extra strong, and stand droughts, sun-heats and stony roads.

In northern Mexico there is no vehicle used lighter than a solid-made, single-seat top buggy.

The prices rule high, the local cost with import duties paid being from \$230 to \$240.

The selling price is all the time twenty-five to fifty per cent. increase on cost. Coaches in use now are old-style very heavy, carry from twenty to forty passengers, and require eight or ten miles to draw them. There are in very generally three-seat, open spring wagons, with cover, brake and cross springs, and built very strong. Carts are in demand also, the Mexican cart being a very ponderous affair. Pleasure carriages come mainly from the United States, as top buggies, freight wagons and ambulances. Under the reciprocity treaty, the demand for American vehicles will be greatly augmented. In 1882 Mexico imported from our country vehicles of value \$175,000. Mexico does not produce the necessary woods for good vehicles—those of the requisite strength, elasticity and toughness. General Sutton advises that we place agents in every principal city of Mexico, to push the vehicle trade, and expresses the belief that we can control the full business. As to whether California manufacturers can compete with those of Mexico, the notorious Indian desperado, who was removed a few days ago from Fort Colville to Walla Walla for trial, Defendant's counsel interposed a defense that the Court had no competent jurisdiction; that an Indian should not try his case in a white man's court. When he left, the desperado had been returned to the Colville Reservation, where he will be dealt with by his own people. They will probably mete summary justice to the tawny-skinned murderer, according to Indian law.

## ADVERTISEMENT MENTION.

METROPOLITAN THEATER.—To-night, "Pop," Sacramento Chapter, R. A. M., this evening. John Fenton, Esq., and Company, D. June 15th. \$10.00—\$12.00—\$14.00—\$16.00—\$18.00. Sergeant, Signal Corps, U. S. A.

## LOCAL INTELLIGENCE.

POLICE COURT.—In the Police Court yesterday A. Sherman pleaded guilty on a charge of larceny, and will receive sentence to-morrow morning. — Tom Durkin charged with having been drunk was discharged on payment of costs. — Hugh Lindsay, for having been drunk, was fined \$10, and Jimmy Turner, for a like offense, was fined \$10. — Wm. McNamee pleaded guilty to driving his team of horses to appear in court to-day. — Tim Barnes, a drunk, was discharged, and John Fitzpatrick, also arrested for drunkenness, forfeited his deposit. — P. J. O'Conor, arrested on suspicion of having been drunk there, to bring a complaint on file against him. — Fred O'Brien and George Elkus, who had violated the ordinance against playing ball in the street, were discharged with an admonition.

CRIMINAL COURT.—In Department One of the Superior Court yesterday, John Dolan and Frank Smith, who stole R. J. Merkley's horse and phaeton last week, pleaded guilty on a charge of grand larceny, and were sentenced to three years each in the State Prison at Folsom. Tong Ah Jung, accused of attempting to murder in killing a fellow-countryman on the hills with a crowbar, also pleaded guilty, and got a five-year sentence. Jim Lee, caught in the act of burglarizing H. Wachhorst's chicken coop, continued to plead guilty, and was sentenced to two years. Sentences in the case of Mock Soon, convicted of murder in the first degree, was continued until next Friday.

BARWICK'S RUMOR.—At the 8 A. M. observation last night the barometer was low, seemingly an interminable war between the proprietors of slaughter-houses and glue factories in the city, and the inhabitants in their immediate neighborhood. It has gone so far as to get into the churches, and it is openly charged that the Principal of Twenty-third Street, was engaged in it. The effect of the discourse was to show that the specific significance of the preachers' office lies in the fact that he represents (1) a kingdom; (2) a great kingdom of Divine power; (3) a great kingdom in movement; (4) a great kingdom in acceleration; (5) a kingdom holding over into the unseen and eternal world. It was shown how this is a new and original feature in the play, and a very "taking" one. Mr. Gorman, the author of the drama, a strong earl, remains a member of the company also. Stuart Harold, a singer quite well known in California, is now on tour. His voice is too sonorous, baritone, and too plain. The balance is lost in the part, and he is filled by Miss Perry, she recalls the latter by the contrast that is to her own delicate and yet a better soprano, and has only one person to sustain her. Mrs. Castleton is precisely the same, and her "business" on the stage shows no modification, neither advance nor retrogression. She had a very warm reception, and the audience was greatly pleased. The exercises have been gratifying to the little woman, who has little else to do than look bewitching and sing a song or two. Wherin her attractiveness resides it would be difficult to say, but probably to the combination of her action, and little else done, but certainly it is true that she is attractive to the house, and draws in a theatrical sense, immensely. Miss Stember is still with the company, and is doing good vocal work.

THE SERMON.

The sermon was preached by Professor George Moon, of Oakland. The text was Professor of Luke x., 11, which closes with the words, "He that knoweth his master's will, let him do it." The object of the discourse was to show that the specific significance of the preachers' office lies in the fact that he represents (1) a kingdom; (2) a great kingdom of Divine power; (3) a great kingdom in movement; (4) a great kingdom in acceleration; (5) a kingdom holding over into the unseen and eternal world.

FOOR-RACING FOR BIG MOSEY.—Last week a foot-race took place at Woodland between Owen Dinsdale and a man who appeared under the name of King for \$500. Both were to run a mile, and the winner received \$100 more to day, making \$2,500 a side, for a 100-yard race, to take place at Agricultural Park this afternoon, between Mr. King and Mr. King. The race will be by decisive choice, to take up the attitude of fight instead of doubt, and the encouragement given to their hopes of deliverance beyond wondering strong. Two other men will be told to follow that the man signs of a recall to the minister that a man has left in his own soul the movements of God for human salvation; that every true Christian ought to be overcome by the spirit of aggression against the evil of the world. The most live body in Sacramento should be the Church of Christ. These points were illustrated by historical allusions, as for instance at the present by the steady movement of Russia in extending again and again her frontier.

A PRAYER OF ORDINATION.

There were several past there had been, seemingly an interminable war between the proprietors of slaughter-houses and glue factories in the city, and the inhabitants in their immediate neighborhood. It has gone so far as to get into the churches, and it is openly charged that the Principal of Twenty-third Street, was engaged in it.

THE CHARGE TO THE PASTOR.

The charge to the Pastor was delivered by Rev. Dr. Beckwith. It was pronounced and the afternoon proceedings in connection therewith were suspended. The pastor, however, had been doing more could be said, and the tax for that purpose had been collected.

A COMMITTEE.

There was a very large audience in attendance at the evening service. The offering was \$1,000, and the proceeds were sent to the Board of Directors.

THE PRACTICE OF MEDICAL SURGEONS.

Rev. Dr. Heilbron, an owner of one of the slaughter-houses complained of, was present and made a statement. He admitted that there was stench in the neighborhood, but not to such a degree as to interfere with the health of the people.

THE PRACTICE OF MEDICAL SURGEONS.

As they approached them saw the man lying as dead, but before they could get him to the hospital, he astounded them by rising, grasping a stick, and putting out a large ear. It transpired that he had been fishing, fell asleep, and awoke to find that he had got a fish bite.

FARMERS' AND GRANGERS' PICNIC.—The annual picnic of the farmers and grangers will take place at Beach's Grove, near Freeport, to-morrow. The committee announces prizes for games of all kinds, and promises a day of complete enjoyment for all who attend. The road is in excellent condition, and the drive and return will be interesting and invigorating, while the picnic may be expected to be the equal in pleasure of any that has taken place, or that is to take place, this season. The proceeds of the picnic will be donated to the Poor Children's Fund.

DEATH OF AN OLD FRIEND.—John Landy, one of the old-time California miners, who came to the city in 1858, died yesterday at the County Hospital, after an illness of a few weeks. He was a native of Dublin, but came to America at an early age, and was raised in Boston. He was a good worker, and made a great interest in the welfare of the craft, was a member of the Knights of Columbus, and a member of the Knights of Pythias, and a member of the Knights of Labor.
